Name: Selva Loorthsamy
Role: Mechanical Fitter
Location: Perth, WA

CAREER SUMMARY

Mechanical Fitter with extensive experience across WA mining operations specialising in fixed plant maintenance, shutdowns and hydraulic systems. Experienced across major mine sites including BHP, Rio Tinto, FMG, Roy Hill, CITIC and Karara performing maintenance on conveyors, crushers, pumps, gearboxes and hydraulic systems. Trade qualified with strong capability in shutdown maintenance, fault finding and preventative maintenance within high-risk mining environments.

LICENSES, TICKETS & QUALIFICATIONS

- Certificate III Engineering – Mechanical Trade (Fitter & Machinist)
- Certificate II in Hydraulics
- Forklift Licence
- Working at Heights
- Confined Space Entry
- Gas Test Atmospheres
- White Card
- MSIC Card
- Fire Extinguisher Training
- Safety Committee Course

SKILLS

- Fixed Plant Maintenance & Shutdowns
- Hydraulic Systems & Hose Repairs
- Conveyor, Crusher & Screen Maintenance
- Pump, Gearbox & Mechanical Repairs
- Hydraulic Power Units & Brake Systems
- Preventative Maintenance & Inspections
- Mechanical Fault Finding & Diagnostics
- Engineering Drawings & Precision Fitting

CAREER HISTORY

HYDRAULIC FITTER / HOSE TECHNICIAN
Aussie Fluid Power – Karara Mine Site
2025 – 2026

- Hydraulic hose fault finding and repairs on mine site equipment
- Pressure testing hydraulic systems and hoses
- Pump refurbishment and mechanical repairs
- Tube bending and workshop hydraulic assembly

HYDRAULIC FITTER
Custom Fluid Power

2019 – 2025

- Servicing hydraulic systems on conveyor and reclaiming equipment
- Hydraulic brake servicing and replacement across fixed plant equipment
- Maintenance of hydraulic power units and filters
- Gearbox oil changes, lubrication and preventative maintenance
- Replacement of pressure relief valves and hydraulic components

MECHANICAL FITTER – SHUTDOWN MAINTENANCE
BHP (Area C, Jimblebar, Whaleback, South Flank, Nelson Point, Finucane Island)
2018 – 2022

- Hydraulic pump and motor replacements on slew systems
- Servicing hydraulic brakes and power units
- Gearbox oil changes and lubrication maintenance
- Replacement of hydraulic filters and breathers

MECHANICAL FITTER – SHUTDOWNS
Rio Tinto (Nammuldi, Yandi, Hope Downs 4, West Angelas, Brockman 4)
2017 – 2019

- Pulley replacements and conveyor maintenance
- Repair of heat exchanger pipe leaks
- Replacement of reclaimer bucket teeth
- Screen inspections and chute maintenance
- Replacement of motors, valves and couplings

MECHANICAL FITTER – SHUTDOWN MAINTENANCE
FMG (Kings Valley, Firetail, Cloudbreak)
2017 – 2018

- Screen panel replacement and conveyor maintenance
- Gearbox oil changes and lubrication servicing
- Crusher rebuilds and coupling maintenance
- Installation of maintenance platforms

MECHANICAL FITTER – SHUTDOWN MAINTENANCE
CITIC Pacific Mining – Cape Preston
2017 – 2018

- Primary crusher rebuilds and roller replacements
- Mechanical maintenance on fixed plant equipment

MECHANICAL FITTER – SHUTDOWNS
Telfer Mine
2017 – 2018

- Heavy motor replacements
- Installation of guards and chute liner replacements

MECHANICAL FITTER – SHUTDOWN MAINTENANCE
Roy Hill Mine
2018

- Hydraulic unit servicing across stackers and reclaimers
- Conveyor and fixed plant maintenance

MECHANICAL FITTER – SHUTDOWN MAINTENANCE

Mt Webber Mine – Port Hedland
2018

- Crusher motor replacements
- Roller replacement and conveyor skirt maintenance

MECHANICAL FITTER – PROCESS PLANT MAINTENANCE
KCGM – Kalgoorlie
2017

- Flow tube replacement and valve installation
- Pipe fitting and clamp installation on plant equipment
