Name: Nathan Arbuckle
Role: Advanced Rigger
Location: Mt Holland

CAREER SUMMARY

Advanced Rigger with extensive experience across construction and shutdown projects, specialising in structural steel erection, heavy lifts and crane operations. Proven capability performing complex rigging tasks including dual crane lifts, load transfers and steel installation in high-risk environments. Strong safety focus with consistent compliance across FIFO and construction sites.

LICENSES, TICKETS & QUALIFICATIONS

- Advanced Rigging (RA)
- Forklift Licence (LF)
- EWP (High Risk WP)
- Working at Heights
- Confined Space
- Traffic Management Ticket
- First Aid & CPR

SKILLS

- Advanced Rigging & Heavy Lifting Operations
- Structural Steel Erection & Installation
- Dual Crane Lifts & Load Coordination
- Chain Block & Hoist Operations
- Reading Drawings & Lift Plans
- JHA / SWMS Preparation & Risk Assessment
- Shutdown & Construction Projects
- Safety Compliance & Site Procedures

CAREER HISTORY

ADVANCED RIGGER
Simpec – Cockburn Cement (CCL KWUP Project) WA
AUG 2023 – DEC 2023

- Performed advanced rigging across major plant upgrade project
- Worked with crews of riggers and crane operators on heavy lifts
- Operated EWP equipment including JLG 185 (VOC completed)
- Maintained compliance with confined space and working at heights procedures

ADVANCED RIGGER
Civmec – Covalent Lithium Plant WA
APR 2023 – MAY 2023

- Completed structural rigging during plant construction
- Worked with crane crews across complex lifting operations
- Operated EWP (Genie 60, JLG 60, JLG 135) with VOC certification

- Maintained high safety standards across all tasks

TRAFFIC MANAGER / CREW LEADER
Contraflow Traffic – WA
OCT 2019 – APR 2023

- Supervised traffic control crews across multiple projects
- Coordinated site logistics and maintained safety compliance

TRAFFIC CONTROLLER
Skillforce Recruitment / Altus Traffic – WA
2017 – 2019

- Delivered traffic control across construction sites
- Maintained safety and compliance standards

ADVANCED RIGGER
Ausgroup – WA
OCT 2008 – DEC 2016

- Performed structural steel erection and heavy rigging operations
- Conducted dual crane lifts and complex load transfers
- Installed beams, columns, walkways, handrails and pipe supports
- Aligned and installed tanks and large structures
- Completed lifting operations in accordance with engineering drawings
- Created JHAs and SWMS for high-risk tasks
