Name: Bryan Messenger
Role: Boilermaker
Location: Mt Holland

CAREER SUMMARY

Senior Boilermaker / Fabricator with 20+ years' experience across mining, oil & gas and construction sectors. Extensive background in shutdown maintenance, fabrication, plant upgrades and team leadership. Proven ability to supervise crews, manage projects and deliver high-quality outcomes safely and efficiently across FIFO and workshop environments.

LICENSES, TICKETS & QUALIFICATIONS

- Certificate III Engineering (Metal Fabrication – Boilermaker)
- Forklift Licence (LF)
- Basic Rigging (RB)
- EWP (WP)
- Crane Tickets (CN, CV)
- Working at Heights
- Confined Space
- First Aid & CPR
- White Card

SKILLS

- Shutdown Maintenance & Fixed Plant Repairs
- Welding (Flux Core, Stick, MIG) & Fabrication
- Conveyor, Crusher & Structural Repairs
- Pumps, Valves & Pipework Maintenance
- Leadership, Supervision & Team Management
- Planning, Scheduling & Reporting
- Rigging, Dogging & Crane Operations
- Safety Compliance & OHS Management

CAREER HISTORY

FABRICATOR / BOILERMAKER
Transmin – Malaga WA
APR 2024 – CURRENT

- Fabricate components for rock breakers and feeder systems
- Work with engineers to develop and test new equipment designs
- Perform rigging, dogging and overhead crane operations
- Operate forklifts and support workshop production

BOILERMAKER
DIAB Engineering (Talisman Lithium Projects) – WA
2022 – 2024

- Performed fixed plant maintenance across lithium operations

- Rebuilt pumps, valves and crusher components
- Maintained and repaired pipework systems across plant
- Conducted exothermic cutting and welding on primary crushers
- Replaced conveyor rollers, skirts and impact beds
- Supported mechanical fitters with plant rebuilds

BOILERMAKER
Civmec – WA
2020 – 2022

- Performed conveyor maintenance including rollers, skirts and scrapers
- Completed fabrication and structural repairs as required

SHUTDOWN BOILERMAKER / FIRST CLASS WELDER
Primero Group – WA
FEB 2020 – MAR 2020

- Delivered major shutdown works on primary crusher upgrades
- Strengthened structural steel including beams and columns
- Completed flux core welding following site qualification testing

SHUTDOWN BOILERMAKER / FIRST CLASS WELDER
KI Group – WA
JUN 2018 – FEB 2020

- Completed shutdowns across iron ore, gold, lithium and nickel sites
- Maintained crushers and conveyor systems
- Replaced wear plates, skirts and structural components

BOILERMAKER / FIRST CLASS WELDER
Bradken – WA
2017 – JUN 2018

- Fabricated and refurbished mining equipment including buckets
- Delivered projects within deadlines and quality standards
- Supervised and mentored team members

OWNER / OPERATOR – BOILERMAKER
Scantec Australia – WA
2016 – 2017

- Managed fabrication and construction projects
- Delivered structural steel work including beams, stairs and balustrades
- Managed scheduling, budgeting and client communication

BOILERMAKER / FIRST CLASS WELDER (SHUTDOWNS)
Outotec / Freemantle Cranes / H Link / Dredging International – WA
2012 – 2016

- Delivered shutdown and maintenance work across mining and LNG projects
- Completed fabrication, repairs and plant modifications
- Maintained compliance with safety systems and procedures
